BLACKJACK SIDE BETS

SWISS CASINO
WINTERTHUR

What Are Side Bets?

Side bets are optional bets that you can place in addition to your regular Blackjack hand. Your standard Blackjack bets remain mandatory. These side games offer exciting extra winning opportunities – completely independent of the outcome of your main hand. In this flyer, you can discover the different side bets available at **Swiss Casino Winterthur.**

Flexible stakes at Swiss Casino Winterthur

At Swiss Casino Winterthur, stakes are more flexible than in many other casinos: if the minimum stake is CHF 5.–, **it does not have to be placed in full on the regular blackjack bet.** In accordance with the table rules, you may split the minimum stake **freely between the main game and the side bet.** The only requirement is that a stake must always be placed on the main game – **a side bet on its own is not possible.**

Progressive Blackjack Jackpot

Progressive Blackjack is an exciting side bet that is linked to a shared jackpot across all Swiss Casinos. The outcome is determined by the first two cards dealt to you and the dealer.

Unlike other side bets at Swiss Casino Winterthur, the stake here is not variable: for this group-wide progressive jackpot, the minimum and maximum stake on the Progressive Jackpot is CHF 5.—.

Blackjack or Ace/Jack: You win.

Minor Jackpot: You have Ace/Jack with the same suit, and the dealer also has Ace/Jack, but with different suits.

Major Jackpot: Both you and the dealer have Ace/Jack with the same suit. Your suit and the dealer's suit may be different.

How to Play

1.

Place your regular blackjack bet.
You can also opt to place a progressive side bet.

2.

The dealer plays according to standard blackjack rules.

3.

Once the dealer has dealt their second card, the result is determined and the progressive bets are settled in accordance with the house rules.

If you have an Ace/Jack of the same suit and the dealer's first card is also an Ace or Jack, you will only be paid out once the dealer has revealed their second card.

No payouts are made on split hands.

Envy Bonus

If another player achieves one of the top two winning combinations, all other players who have placed the Progressive bet also win an Envy Bonus – according to the payout table.

Additional information

The complete list of winning combinations and payouts is available on the table display. If multiple players hit the jackpot at the same time, the winnings are split equally.

Bust

Bet on the dealer going bust.

If the dealer busts, you win

2.5 to 1! If the dealer does not bust, you lose the bet.

Simple, fast and a little thrill with every round.

21 + 3 Xtreme

With 21 + 3 Xtreme, **Blackjack meets poker** – giving you even more chances to win!

This side bet is based on your **first two cards** and the **dealer's face-up card**.

If these three cards form a valid **poker hand**, you win.

Combination	Payout
Flush	5:1
Straight	10:1
Three of a Kind	20:1
Straight Flush	30:1

Top 3

Top 3 is a variant of the side game 21 + 3 Xtreme and offers even higher winnings!

The bet is based on your **first two cards** and the **dealer's face-up card** – together they form a three-card **poker hand**.

Top 3 combinations and payouts:

Combination	Payout
Suited Trips*	270 : 1
Straight Flush	180 : 1
Trips (Three of a Kind)	90 : 1

* three identical cards of the same suit

In addition, the standard **21 + 3 payouts** also apply:

Combination	Payout
Flush	5 : 1
Straight	10 : 1
Three of a Kind	20 : 1
Straight Flush	30 : 1

Get The Picture

If your **first two cards** are picture cards (Jack, Queen or King), you win **12 to 1**.

Bonus: If the dealer also receives a pair of picture cards of the same suit, the payout increases from **12 to 1** to **300 to 1**.

The picture cards do not need to form a pair – any combination counts (e.g. King + Queen).

In Short

Side bets are optional **additional bets**.

They are placed **before the cards are dealt**.

Winnings are paid out **automatically after the round**.

In the games **21+3 Xtreme, Top 3 and Get the Picture**,
you can divide the minimum bet between the
main game and the side bets, as per the table rules.
