BLACKJACK SIDE BETS

SWISS CASINO
PFÄFFIKON

What Are Side Bets?

Side bets are optional additional bets that you can place alongside your regular Blackjack hand. Your standard Blackjack bets remain mandatory. These side bets offer exciting extra winning opportunities, completely independent of the outcome of your main hand. This flyer showcases the various side bets available at **Swiss Casino Pfäffikon**.

Progressive Blackjack Jackpot

Progressive Blackjack is an exciting side bet that is linked to a shared jackpot across all Swiss Casinos. The outcome is determined by the first two cards dealt to you and the dealer.

Blackjack or Ace/Jack: You win.

Minor Jackpot: You have Ace/Jack with the same suit, and the dealer also has Ace/Jack, but with different suits.

Major Jackpot: Both you and the dealer have Ace/Jack with the same suit. Your suit and the dealer's suit may be different.

How to Play

1.

Place your regular blackjack bet.
You can also opt to place a progressive side bet.

2.

The dealer plays according to standard blackjack rules.

3.

Once the dealer has dealt their second card, the result is determined and the progressive bets are settled in accordance with the house rules.

If you have an Ace/Jack of the same suit and the dealer's first card is also an Ace or Jack, you will only be paid out once the dealer has revealed their second card.

No payouts are made on split hands.

Envy Bonus

If another player achieves one of the two top winning combinations, all other players who have placed a Progressive bet receive an Envy Bonus according to the payout table.

Additional information

The complete list of winning combinations and payouts is available on the table display. If multiple players hit the jackpot at the same time, the winnings are split equally.

Perfect Pairs

With the Perfect Pairs side bet, you wager that your first two cards will form a pair. The bet must be placed in the designated betting area before the game begins.

There are three winning possibilities:

Mixed Pair – same rank, one red card and one black card

Payout: 6:1

Coloured Pair – same rank and same colour
(both red or both black)
Payout: 12:1

Perfect Pair – two identical cards
(same suit and same rank)
Payout: 25:1

Bust

Bet that the dealer will go bust!
If they do, you win **2,5:1!**
However, if the dealer doesn't bust, you lose the bet. It's simple, fast, and thrilling every time!

Powerplay

If you are dealt a Blackjack, you may activate the Powerplay side bet in the next round. Once activated, all players at the table have the option to participate in the side bet.

During Powerplay, all 7 player boxes are dealt. The objective is to achieve as many Blackjacks as possible – the more Blackjacks are dealt, the higher the payout. The dealer's cards do not affect the outcome of the side bet.

Number of Blackjacks	Payout
1 Blackjack	1 to 1
2 Blackjacks	4 to 1
3 Blackjacks	50 to 1
4 Blackjacks	500 to 1
5 Blackjacks	1000 to 1
6 Blackjacks	3000 to 1
7 Blackjacks	5000 to 1

Powerplay is only available at tables equipped with a shuffling machine.
